My Parent has FTD

One day Seminar for Young Adults
and Teens with a Parent
affected by FTD

"My father's illness changed our lives. Our FTD support group was a rich source of information and comfort. I know teens and other young adults are isolated from that kind of support. They need to reach out to people their own age to learn how to cope and to share their feelings. It can mean a great deal."

~Allyson Sealfon, co-coordinator

August 3rd, 2pm-4pm @ Copper Ridge

710 Obrecht Road, Sykesville, MD; 410-795-8808

Agenda

- 2:00-2:20- Registration and Refreshments
- 2:30-3:15- Guest Speaker: Dr. Onyike & Becky Rye of Johns Hopkins FTD Clinic
- 3:20-4:00 - Small Group Sessions

Please call or email to reserve your space, as space is limited. Parents and spouses of FTD patients are also welcome.

Allyson– asealfon@gmail.com or Anna– 717-352-8188

This seminar is organized by Anna Scaggs and her daughter, Allyson Sealfon, whose husband and father, Dave Scaggs, has FTD. Many thanks to Copper Ridge and the Association for Frontotemporal Degeneration for their support in making this seminar possible.
