

The Kensington White Plains is Proud to Present

Understanding Specialty Dementias: *Symptoms, Communication Practices and Resources*

Tuesday, September 28th, 6:30pm - 7:30pm EDT via Zoom

Join The Kensington White Plains for an interactive presentation about **Specialty Dementias** such as **Lewy Body, Frontotemporal Dementia and Vascular Dementia**. During this panel discussion, you will learn what the **common symptoms** are for each, **the differences between them**, and what you can do to best assist your loved ones with these diseases. This virtual presentation will provide an **opportunity for caregivers, families, and healthcare professionals** to learn what happens when the brain changes and **how to respond in compassionate, thoughtful ways with your loved one or client**.

Jennifer Reeder,
